ACTION	✓	COMMENTS
ASSESSMENT - PRIMARY SURVEY	Ι .	
Survey Scene Protective Gear		
Danger		
Number of patients		
More help needed ?		
Mechanism of injury		
LOC Talks to patient		
A.V.P.U.		
Airway		
Breathing rate & quality		
Give appropriate ventilation & C-spine instructions		
Circulation Pulse at wrist and neck		
Skin color, condition and temp.		
Control major bleeding		
<b>Head</b> Obvious major injury head/face		
<b>Neck</b> Obvious injury		
Trachea		
Neck Veins		
Chest Chest movement, blunt trauma, open wounds, TIC		
Breath sounds present & equal?		
Percusses (PRN)		
Note heart sounds		
Abdomen Blunt trauma, penetrating wounds, distention		
Feel for tenderness		
Pelvis Deformity, penetrating wounds, TIC		
Extremities		
Lower - deformity, penetrating wounds, TIC		
Upper - deformity, penetrating wounds, TIC		

IF ALTERED MENTAL STATUS => DO BRIEF NEURO			
Pupils			
Glasgow Coma Scale			
Signs of Cushings Reflex Unresponsive, hypertensive, bradycardia			
Check for medical identification devices			
SAMPLE History			
Vital Signs BP, HR, Resp			
Make critical situation decision			
Examine posterior during roll - DCAP-BTLS			

ACTION	✓	COMMENTS
DETAILED HISTORY & PHYSICAL		
Obtain History & VS - may direct others to do. Consider monitors		
Neurological Exam LOC - A.V.P.U.		
Pupils = or not =, response to light		
Motor fingers & toes move?		
Sensation touch fingers & toes		
If altered LOC: consider causes, do blood sugar		
Glasgow Coma Scale		
Signs of Cushings Reflex - unresponsive, hypertension, bradycardia		
Check for medical identification devices		
Head - scalp & face, DCAP-BTLS		
Battle signs and raccoon eyes		
Fluid drainage from ears or nose		
Pupils		
Skin color, condition, temperature		
Airway - open & clear?		
Signs of burns		
Breathing rate & quality		
Circulation - HR and quality		
Blood pressure		
Skin color, condition, temperature (if not done above)		
Neck - DCAP - BTLS		
Trachea		
Neck veins		
Chest - DCAPP - BTLS		
Breath sounds present & clear?		
Percusses (PRN)		
Heart sounds		
ET tube		
Abdomen - DCAP - BTLS		
Feel for tenderness		
Lower extremities DCAP-BTLS, PMS, ROM		
Upper extremities DCAP-BTLS, PMS, ROM		

GRADE KEY:
<ul> <li>[ ✓ ] Completed, skill performed in sequence</li> <li>[ D ] Delayed, performed out of sequence</li> <li>[ X ] Skill not performed, too late or incorrectly</li> </ul>

Ask matient about about a bours in bour be facile	Performs initial assessment and interacts with patient
sk patient about changes in how he feels	Performs organized Rapid Trauma Survey or Focused Exam
eassess mental status LOC, pupils, GCS	Ensures spinal motion restriction
Check airway Check breathing rate & quality	Ensures appropriate oxygenation and ventilation
Check circulation - BP & HR	Recognizes and treats all life-threatening injuries
Skin color, condition, temperature	Uses appropriate equipment and techniques
Check neck - veins, trachea	Recognizes critical trauma, time and transport priorities
Check chest - breath sounds =	Performs Detailed Exam (when time permits)
Percussion PRN	IMPORTANT ACTIONS
Recheck heart sounds	Performs Ongoing Exam (when time permits)
Check abdomen for tenderness - if mechanism suggests possible injury	Utilizes time efficiently
Focused Assessment of injuries	Gives appropriate report to medical advisor
Recheck all recognized injuries	Demonstrates acceptable skill techniques
Check Interventions Recheck all interventions	Displays leadership and teamwork
ET Tube, O2 rate correct?, IVs running?	
Open chest wound sealed? Decompression catheter patent? Dressings blood soaked?	GRADE KEY:
Splints in good position? PMS OK? Pregnant pt. tilted to left? Cardiac Monitor? O2 Sat?	[ ✓] Completed, skill performed in sequence
	<ul><li>[ D ] Delayed, performed out of sequence</li><li>[ X ] Skill not performed, too late or incorrectly</li></ul>
	OVERALL GRADE
[ ] Excellent	
[ ] Good	
[ ] Adequate	
[ ]/idequate	
[ ] Inadequate	
[ ] Inadequate	
[ ] Inadequate	
[ ] Inadequate Further Comments:	
[ ] Inadequate Further Comments:  Lead Instructor Name/Signature:	

COMMENTS

**CRITICAL ACTIONS** 

Completes Scene Size-up and uses universal precautions

ACTION

ONGOING ASSESSMENT
